DETAILED ACTION

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 4-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Buer et al., U.S. Patent # 6,664,855 B2.

Figs. 1, 2 of Buer et al. discloses an amplifier comprising: driver amplifier 200 can be read driver amplifier; amplifiers 101a-101f can be read as a plurality of amplification stages that are in zig zag pattern in folded configuration; in Fig. 2, the first two adjacent transistors sharing the same input signal having an RF signal output faces in the same direction as an RF signal input of an adjacent amplification stage; drain and gate bias 104, 106, capacitors 108a-108e can be read as an interstage matching network; signals from bias feed 104, 106 can be read as a DC bias circuitry or bias feed; capacitors 108a-108e can be read as DC blocking capacitors; substrate 202 can be read as a die.

The applied reference has common inventors Buer and Dendy with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this

application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Allowable Subject Matter

Claims 1-3, 19, 20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
